Einstein’s Italian Mathematicians

- The Ricci of Lugo
- The making of a mathematician
- Munich
- Padua
- Math and marriage
- A promotion that wasn’t
- The absolute differential calculus
- The alter ego
- Intermezzo
- The indispensable mathematical tool
- “Write to me next time in Italian”
- Parallel displacements
- From Ricci’s absolute differential calculus to Einstein’s theorem for general relativity
- T. Levi-Civita, “Gregorio Ricci-Curbastro”
- Obituary of Tullio Levi-Civita
- Selected references
- Notes
- Index
